

HOTEL STEWART
SAN FRANCISCO
Geary Street, above Union Square
Just opposite Hotel St. Francis
European Plan \$1.50 a day up
American Plan \$3.00 a day up
Steel and brick structure, furnishings cost \$200,000. High class hotel at moderate rates. Omnibus meets all trains and steamers. Hotel Stewart now recognized as Hawaiian Island headquarters. Cable address, "Trawets," A. B. C. Code. Reservations made through Trent Trust Co., Fort Street, Honolulu.

Hotel St. Francis

Union Square, San Francisco
Under the Management of
JAMES WOODS

FACING the beautiful park in the heart of the city, which is the theatre of the principal events of the famous festivals of San Francisco, this hotel, in environment and atmosphere, expresses most pleasantly the comfortable spirit of old California.

The royalty and nobility of the Old World and the Far East and the men of high achievement in America who assemble here contribute to the cosmopolitan atmosphere of an institution which represents the hospitality and individuality of San Francisco to the traveler.

The building, which marks the farthest advance of science in service, has now the largest capacity of any hotel structure in the West, and upon completion of the Post street annex will be the largest caravansary in the world. WHILE THE SERVICE IS UNUSUAL, THE PRICES ARE NOT.

European Plan from \$2.00 Up

ASAHI TEAM TO TACKLE LEADERS

Palamas Have Not Been Defeated Yet and C. A. U. Just the Opposite.

As the Athletic Park was not in fit condition for play last Sunday morning, the Oahu Junior games had to be postponed and will be played at the end of the series.

Next Sunday morning will see one of the most hotly-contested games played at the park, between the two leading teams of the series. The Asahis will try to break the long string of victories which the Palamas have been piling up since the series started, not yet having lost a game.

The game is attracting much attention among the followers of the league, and the turn-out Sunday should excel all previous games.

The Palamas have met the Asahis before, when the Nipponese were defeated badly, but since then they have improved a lot and have lost only the one game to the Palamas. If they manage to take the Palamas into camp, the Japanese fans will go wild with delight, as both teams will then be even for championship honors of the first series.

The Maruyama brothers, who do the twirling for the Asahis, are a hard bunch to beat and in almost every game both of them take chances in the box.

The Palamas have been playing with their old standby in the box right through the series, and often he allows his opponents to hit his curves, only to find the ball caught by his backer. The Palama team is composed of some snappy ball players, and they can certainly play ball.

The first game of the afternoon will be pulled off between the Aalas and Muchocks. The Aala team, managed by Sam Hop, has some good players, but lacks team work. Sam expects to do the twirling Sunday, and he will deliver some of his newly-invented curves against the Muchocks, which he calls "Upshoot."

The first game takes place promptly at 3:30 o'clock. All the players are expected to be on time.

MAGOON PLAN MAY FALL FLAT

President Pratt presided at the first meeting of the board of health, since his appointment, yesterday afternoon. Three cases of tuberculosis were reported from the Industrial school at Waialeale. Tents are to be erected and the dormitories fumigated. Dr. Pratt stated that this would clean the place out and in all probability stop any further spread of disease.

The board made a visit of inspection to some land owned by J. Alfred Magoon in Kewala where he proposes to erect ten cottages with a thirteen-foot roadway between them. The land is two feet nine inches above high water mark and there are pools around it which have a strong odor. Magoon in his present plans shows one central cesspool which he thinks according to the board, the ebb and flow of the tide will keep clear. The board members appeared to think otherwise, however, and Magoon is to be asked to come before them at their meeting next week. From their statements yesterday it seems as though there will be very little chance of the plan being approved.

The board will hold its regular meetings in the future at half past three o'clock Thursday afternoons.

FANDOM AT RANDOM

The English press is handing out a panning to the proposed Johnson-Wells fight. The papers whose antagonism was aroused will continue the roasting and the fight may be called off as a consequence at any moment. Whatever happens, Johnson will not lose by the transaction. The promoters have \$10,000 posted and should anything happen to interfere with the match, Jack is to draw down 75 per cent. of all posted money as a forfeit. Wells gets the balance. Should the match go on Johnson will conclude his theatrical engagements with a week's lecture tour at the Waverly Market, Edinburgh, on August 28 and go from there to Blackpool (Liverpool's Coney Island), where he will train and give public exhibitions until the day of the fight.

In the game at Lahaina on Tuesday between the Ali-Maul and Chinese teams, the last inning was a very exciting one, when the Chinese pulled themselves out of a bad hole. Dunn was on third. The man at the plate struck out; then the next man was out on a pop fly. Two out and a man on third. Kealea was the next man up and he tried his luck. He succeeded in meeting the ball and it went to third, while he raced to first, but L. Tin, who was holding down third, got hold of the ball and sent it home in time to catch Dunn at the plate.

ARMY IN UNIT AFTER 40 YEARS

Major General Carter Says First Time Accomplished Since Civil War.

BY C. S. ALBERT.
(Special Bulletin Correspondence.)

WASHINGTON, D. C., August 11.—The creation of one tremendous military unit was accomplished for the first time since the Civil War during the recent maneuvers along the Mexican border, is the opinion expressed by Major-General Carter, the commander-in-chief. He says the real purpose of the assemblage, aside from international considerations, was to try such an experiment. In his opinion five times the money expended would not equal the benefits derived or indicate the value to the country.

General Carter says this was the first opportunity afforded the modern army to assemble all branches of the service—the infantry, the cavalry, the artillery, the transportation and subsistence departments—and to make a thorough test of what had been purely theoretical estimates of the proper balance between them. As might have been expected, it was soon found that there was need for considerable readjustment of the relative numerical strength of the various branches to make one perfect whole. That problem was worked out by the test of actual practice, and General Carter feels that when he left Texas he had brought into being the perfect military unit which has been so long desired by army strategists.

Future plans of the department contemplate the creation of a number of such units in the different military divisions, which, in skeleton form, will represent the entire mobile strength of the United States Army on a war footing.

The staff and supply departments generally gave very satisfactory service. While some staff service presents more noticeable features than others, it was the general belief in the division that the modern American field bakery and the lines of communication maintained by the signal corps solve two of the problems which have in the past given considerable concern.

One of the important things learned, says General Carter, was the fact that the equipment of the army can be materially reduced. While the division possessed no automobiles, the experience has shown that motor trucks can be profitably employed to take the place of a great many pack trains. The pack train, however, cannot be entirely eliminated, as only by the old reliable mule can the luggage of an army be transported over rough and mountainous country.

WHARF PLANS ARE PASSED

The plans for the Richards street wharf were approved by the board of harbor commissioners at their meeting held yesterday afternoon at the Capitol. The new structure will be the same height as the Alakea street wharf and includes a balcony which will not be put in at the present time, however, owing to lack of funds. Bids are to be called for furnishing and laying ohia blocks and also for tenders for constructing the shed. The slides will be fitted with openings sufficient to work the ports and hatches of any ship.

Plans were also shown for the sea-wall. Borings have been completed and the specifications are expected to be ready in a few days. The estimate is about \$25,000, which is exclusive of dredging. The slips will be deepened back to the new wall.

The board is to make a visit to Ahulmanu during the next few days to look over the proposed wharf site there. With the development of the pineapple business on the windward side of the island and in view of the fact that there will be a lot of freight necessary for the Oahu tunnel scheme it is claimed that a wharf is badly needed there. Eben P. Low brought the matter before the board.

WASH THAT ITCH AWAY

It is said there are certain springs in Europe that give relief and cure to Eczema and other skin diseases. If you knew that by washing in these waters you could be relieved from that awful itch, wouldn't you make every effort to take a trip to Europe at once? Would you not be willing to spend your last cent to find the cure? But you need not leave home for these distant springs. Relief is right here in your own home town!

A simple wash of Oil of Wintergreen, Thymol and other ingredients as compounded only in D. D. D. Prescription will bring instant relief to that terrible burning itch, and leave the skin as smooth and healthy as that of a child.

Best possible wash for pimples and all skin impurities. If you have not already tried it, get a bottle today. \$1.00. We assure you of instant relief. Benson, Smith & Co., Fort and Hotel streets.

Does Your Back Ache?

If you are a woman and you have this symptom get Lydia E. Pinkham's Vegetable Compound without delay. Backache seems an invention of the evil one to try woman's souls. Only those who suffer this way can understand the wearing, ceaseless misery.

We ask all such women to read the following letter for proof that Mrs. Pinkham's medicine cures backache caused by woman's diseases.

Morton's Gap, Kentucky.—"I suffered two years with female disorders, my health was very bad and I had a continual backache which was simply awful. I could not stand on my feet long enough to cook a meal's victuals without my back nearly killing me, and I would have such dragging sensations I could hardly bear it. I had sores on each side, could not stand tight clothing, and was irregular. I was completely run down. On advice I took Lydia E. Pinkham's Vegetable Compound and Liver Pills and am enjoying good health. It is now more than two years and I have not had an ache or pain since. I do all my own work, washing and everything, and never have the backache any more. I think your medicine is grand and I praise it to all my neighbors. If you think my testimony will help others you may publish it."—Mrs. Ollie Woodall, Morton's Gap, Kentucky.

Lydia E. Pinkham's Vegetable Compound has made thousands of cures of such cases. You notice we say has cured thousands of cases. That means that we are telling you that it has done, not what we think it will do. We are stating facts, not guesses.

We challenge the world to name another remedy for woman's ills which has been so successful or received so many testimonials as has Lydia E. Pinkham's Vegetable Compound.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

"CLEVELAND" TOURIST TELLS HOW HAWAII IMPRESSED HIM

How Honolulu impressed one member of the world-touring steamer Cleveland party is graphically told in a recent issue of the Baltimore American. William G. Frizell writes as follows:

Flowers, music, climate and cordiality are the paradise-creating characteristics of Honolulu. They make all visitors remember Honolulu as the most beautiful, lovable spot of the universe. With music and flowers we were greeted. When the Cleveland entered the bay she stopped to receive the welcoming launches, bearing an Hawaiian orchestra, and singers and laden with flowers. After a serenade the ship's steps were lowered, and up tripped sprightly Hawaiian maidens, followed by a reception committee carrying bushel baskets of flowers. When we marched down on to the dock, garlanded and wreathed with flowers and wearing big, bright buttons presented by the reception committee bearing the Hawaiian word of welcome, "Aloha!" we looked as foolish and felt as proud as sweet girl graduates carrying their daisy chains.

On the new dock, to which the Cleveland was fastened and which only a month before she had christened, the royal Hawaiian band welcomed us with "Aloha" and other airs, and many people were there to greet their American friends. Honolulu, the capital of the American territory of Hawaii, is a growing city with a mixed population. The city has a modern progressive appearance, with well paved streets, electric cars, substantial business blocks, large hotels and beautiful residences.

The principal sights of Honolulu are the government building or old palace, the Bishop Museum, the Coral Congregational Church, the Fall, the Punch bowl, Waikiki beach and the aquarium. All can be visited easily in a day, but Honolulu can be enjoyed indefinitely.

The Hawaiian people are a good-natured, easy going, attractive people, who are decreasing rapidly in numbers. The little girls are very bright and pretty, but as they grow older they are inclined to stoutness.

There are a number of interesting short excursions from Honolulu. From the adjacent mountains can be obtained a view of sea and valley that

rivals the one from the top of the rock at Capri, Italy.

Many rode out in automobiles to view the sugar cane and pineapple plantations. Sugar is king in Hawaii. The sugar yield for 1908 amounted to over \$40,000,000, and the largest sugar mill in the world is there. Music is another pleasant memory of Honolulu. Everywhere we heard and enjoyed Hawaiian music. For two days our party was kept busy, interested and delighted at Honolulu.

The great dock was crowded, and as we sailed away there came to us across the bay the strains of Aloha, played on the shore by the Royal Hawaiian band. As this paradise island of the Pacific, with its flowers, music and hospitality, had made us constantly feel "Aloha," there seemed a special fitness in this welcome song even as a farewell.

TREATIES MUST BE AMENDED

BY C. S. ALBERT.
(Special Bulletin Correspondence.)

WASHINGTON, D. C., August 11.—The postponement of action on the general arbitration treaties was fully expected from the day of their receipt by the Senate. It was immediately realized by Senators that Article III, which gives the High Joint Court of Inquiry power to determine what controversies shall be submitted to the Hague Tribunal, must be amended. Otherwise the right of the Senate to participate in all forms of treaty-making would be lessened to that extent.

Two meetings of the Foreign Relations Committee fully convinced Senator Cullom, its chairman, that nothing could be accomplished before the adjournment of the extraordinary session. Although deeply regretting delay, he frankly admitted that ratification must be deferred until the next session.

Miss Mary De Witt and George Prentice, living in separate towns in Iowa, were married by telephone.
